

Thermo- Coagulation Workshop

Course Directors:

Dr Kalpana Ragupathy &
Dr Wendy McMullen

Dundee method of Thermocoagulation. This one day interactive course is for Colposcopist doctors & nurses, helping them to develop independent practice of thermocoagulation.

The course will include presentations outlining the theory and application of thermocoagulation, including reviewing the selection criteria for both patients and CIN pathology.

Practical sessions will allow the delegates the opportunity to develop their skills at performing thermocoagulation on models

8th November 2024
